2. ☐ Comment. The volume of rail ammunition shipments of the Toepchin ammunition depot was rather small during the period of observation. ☐ 25X1
☐ 7,000 tons of ammunition arrived at Toepchin from the USSR in 1954. With this amount of ammunition supply, Toepchin is the second in rank after Altengrabow. It is noteworthy that Toepchin dispatched ammunition shipments to all ammunition depots of the various armies. 25X1
